PROFILE SUMMARY

Results-driven Full Stack Developer with 6+ years of experience architecting and delivering high-performance SaaS applications across MERN stack and Laravel. Proven track record of leading cross-functional teams, managing full SDLC independently, and integrating AI automation tools (N8N, RAG) into production systems. Skilled in AWS cloud deployment, RESTful API design, and database optimization across MySQL, PostgreSQL, and MongoDB. Seeking a senior-level engineering role to drive impactful digital solutions.

WORK EXPERIENCE

Full Stack Developer

Oct 2024 – Present

Coltri Marthub | Node.js · React.js · Redux (RTK) · Laravel · MongoDB · PostgreSQL

- Architected and delivered a full SaaS platform rebuild from scratch using Node.js, Redux RTK, and React.js, reducing system downtime by 60% and improving page load speed by 40%.
- Designed and implemented dual-database architecture (MongoDB + PostgreSQL) to handle 50K+ daily records with zero data loss.
- Independently managed stakeholder coordination, sprint planning, and deployment pipeline on AWS EC2 and S3.
- Integrated AI automation workflows using N8N, cutting manual reporting time by 3 hours/week.

Full Stack Developer

May 2022 – Feb 2024

Shine Web Solution, Noida | Laravel · Node.js · React.js · MySQL · PostgreSQL

- Led end-to-end rebuild of client SaaS products, handling both frontend (React.js) and backend (Laravel, Node.js) development across 5+ concurrent projects.
- Designed scalable technical architecture for multi-tenant applications, improving system throughput by 35%.
- Managed full SDLC from requirements analysis through deployment, coordinating with 8+ stakeholders across projects.
- Delivered all assigned projects on schedule, maintaining a 100% on-time delivery rate over 21 months.

Mar 2024 – Sep 2024: Freelance consulting and personal SaaS project development (AI integration, N8N automation)

Full Stack Developer

Feb 2021 – Mar 2022
